

EXTENDED LIFE PRODUCTS

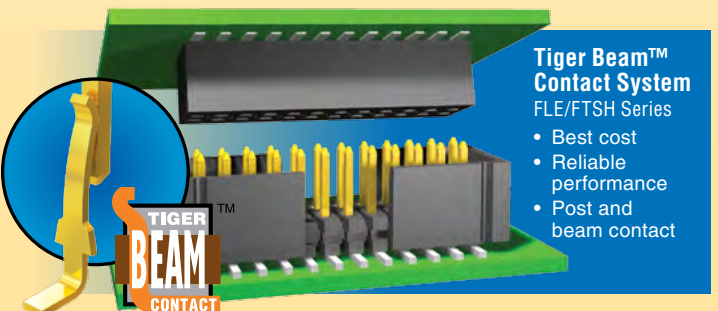

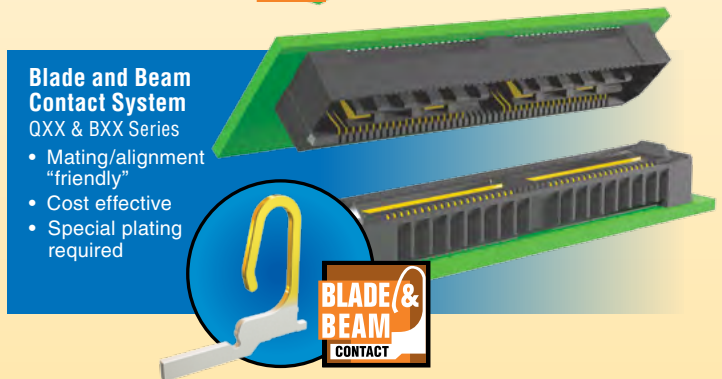

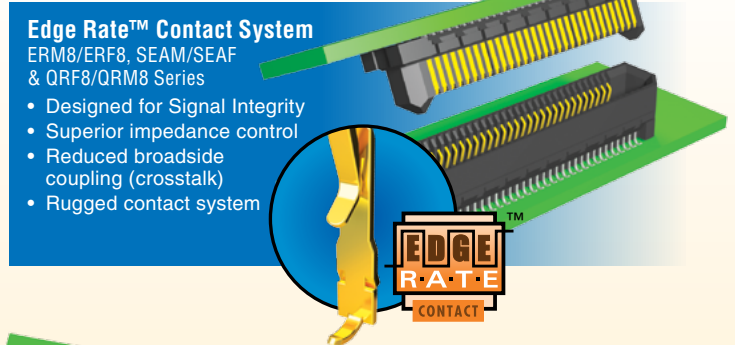

Samtec's E.L.P.TM products are tested to rigorous standards which evaluate contact resistance in simulated storage and field conditions:

- 10 year Mixed Flowing Gas (MFG)
- High Mating Cycles (250 to 2,500)
- Certain plating and/or contact options will apply; see product series pages in Samtec's Full Line Catalog for E.L.P.TM Certified options
- For complete details on Samtec's E.L.P.TM program and test results for Extended Life Products, please visit www.samtec.com/ELP or email the Customer Engineering Support Group at CES@samtec.com
